Subject: Re: District Letter

Elizabeth, would you rather that the board simply vote to approve the firing of 75 teachers? What is the problem with the MTA and the board working TOGETHER to save jobs? They are making an effort and if you had read this correctly you would see that it covers two years, not one. Why do you and others continue to point fingers? What's done is done. The barn door is open, the horse is long gone. We need to step up to save our own.

How can you possibly compare \$3000 or so to a JOB? Is the extra \$ in your check and pension really worth someone's else's life? Losing your job is life changing and that's what you are proposing to do to 75 colleagues by refusing to work with the board. They are making an honest and serious effort. So should we.

Have a nice weekend.

Linda
