Case manage approximately 12 of the most behaviorally and emotionally disabled students at Maine East.
There are will be no ED instructional teachers left next year, as both are being let go, and the plan is for you to bring back the even more severe ED students who are in outside placements. I have built a relationship with many of these students that has taken 2 to 3 years to foster. Many of them will not take this news well and it will have a detrimental effect on their education academically and behaviorally, even possibly causing many of them to require outside placements, in turn, causing more money to be spent.
