Subject: News Release

All,

This News Release was sent to the appropriate MTA leadership prior to going out publicly.

I am now getting feedback that some staff members have not gotten it, and I have been asked to send it out in case anyone missed it. It is also posted on the District web site.

Another question that has come to me is how long would any jobs be saved, and the answer is for the next two years. This would allow us to take advantage of retirements, something that many people appealed for, and also to hopefully see a rebound in the economy. I apologize if you did not get this in a timely manner. It was not our intent to keep it from anyone.

Sincerely,

Ken Wallace
